

Register IVZ-Fahrzeuge

Fahrzeugbestände nach Typ Bautstelle und Kommunal

Erläuterung zum Bericht

| | |
|---------------|---|
| Zweck | Typen- und markenbezogene Übersicht zum Fahrzeugbestand. |
| Datenstand | 30.04.2022 |
| Fahrzeugarten | Arbeitsmaschine (Code 50 in Feld 19 des heutigen Fahrzeugausweises) Arbeitskarren (Code 51) Motorkarren (Code 80) |
| Sortierung | Aufsteigend nach Marke, absteigend nach Hubraum, Fahrzeugtyp und Altersbereich. |

Datenfelder:

| | |
|----------------------------|--|
| Marke | Entspricht in den meisten Fällen der Angabem im Fahrzeugausweis (Extrakt aus Feld 21 im heutigen Fahrzeugausweis). |
| Marke und Typenbezeichnung | Entspricht in den meisten Fällen der Angabe im Fahrzeugausweis (Feld 21 im heutigen Fahrzeugausweis). Zur einfacheren Gruppierung der Daten werden Marke und Typenbezeichnung in Grossbuchstaben aufgeführt und es wird pro Typengenehmigung die am häufigsten verwendete Typenbezeichnung angegeben. |
| ccm | Hubraum [ccm], entspricht Feld 24 im heutigen Fahrzeugausweis. |
| Typengenehmigung | Entspricht Feld 24 im heutigen Fahrzeugausweis. Fahrzeug mit einer Typengenehmigung und Fahrzeuge ohne Typengenehmigung (Typenschein X) werden getrennt gezählt. |
| Altersbereich | 80% der gezählten Fahrzeuge haben eine Jahrgang in diesem Bereich, wobei sich der Jahrgang hier auf das Datum der 1. Inverkehrsetzung bezieht (nicht Herstellung oder Modelljahrgang). Bei gebraucht importierten Fahrzeugen wird auf das Datum der 1. Inverkehrsetzung im Ausland abgestellt. |
| in Verkehr | Fahrzeug in Verkehr am Stichtag 30.04.2022. Werte in Klammern: Fahrzeug die am Stichtag in Verkehr sind oder es innerhalb der letzten fünf Jahre an mindestens einen Tag waren. Inverkehrsetzungen mit Händler- oder Tagesschildern werden nicht berücksichtigt. |

Hinweise zur Bestimmung des Bestand eines bestimmten Fahrzeugtyps:

Technisch identische Fahrzeuge können unterschiedliche Typengenehmigungen aufweisen, denn jeder Importeur erstellt eine eigene Typengenehmigung. Es ist in den Daten nicht ersichtlich, welche Typengenehmigungen einander entsprechen. Typengenehmigungen des herstellerautorisierten Importeurs (Generalimporteur) haben an zweiter Position nie ein X, sondern den ersten Buchstaben des Markennamens. Typengenehmigungen eines Parallelimporteurs weisen an zweiter Stelle ein X auf.

Inbesondere bei neueren Personenwagen können kleinste technische Abweichungen (z.B. Reifenvarianten) in einer eigenen Typengenehmigung abgebildet sein.

Gebraucht oder für den Eigengebrauch importierte Fahrzeuge haben die Typengenehmigung X, auch wenn sie technisch exakt einem typengenehmigten Typ entsprechen.

Insbesondere bei Fahrzeugen mit Typengenehmigung X können identische Fahrzeugtypen unterschiedliche Typenbezeichnungen tragen. Unter anderem, weil Angaben aus ausländischen Dokumenten übernommen werden.

Fahrzeuge können ohne Angabe einer Marke registriert sein. Sie sind dann unter der Marke 'UEBRIGE (SIEHE TYP)' aufgelistet. In diesem Bericht sind 2'979 Fahrzeuge davon betroffen.

Einige Marken laufen unter verschiedenen Markenbezeichnungen (z.B. ENFIELD und ROYAL ENFIELD, AUDI und QUATTRO, etc.). Die unten folgende Markenübersicht listet alle im Bericht vorkommenden Marken auf und sollte vorgängig konsultiert werden.

Im Register gibt es keine Angaben zum Modelljahrgang, sondern nur zum Erstinverkehrsetzungsdatum der einzelnen Fahrzeuge (siehe dazu auch das Feld Altersbereich).

Fahrzeuge eines Typ können manchmal unter verschiedenen Fahrzeugarten zugelassen werden (z.B. als Personewagen oder als Lieferwagen oder als leichter Motorwagen oder als landwirtschaftlicher Traktor). Möglicherweise finden sich in einem Bericht zu anderen Fahrzeugarten noch Fahrzeuge eines gesuchten Typs.

Allgemeines:

Alle Angaben sind ohne Gewähr.

Fehlerbehaftete Angaben (z.B. Typenbezeichnungen, Hubraum) können nicht korrigiert werden. Die Angaben im Fahrzeugausweis werden anlässlich der periodischen Fahrzeugprüfung kontrolliert und der Halter eines Fahrzeugs steht in der Pflicht, Angaben, die nicht den Tatsachen entsprechen, dem kantonalen Strassenverkehrsamt zu melden. Allfällige Korrekturen im Fahrzeugausweis werden in der Auswertung berücksichtigt, wenn das Fahrzeug in Verkehr ist und die Änderung zeitliche vor Erstellung dieses Berichts erfolgte.

Weitergehende oder ergänzenden Auskünfte müssen nach den Vorgaben der Gebührenverordnung des ASTRA in Rechnung gestellt werden. Eine gezielte Suche nach bestimmten Typen ist grundsätzlich möglich. Auch eine Suche nach Erkennungsmustern in der Fahrgestellnummer oder anhand technischer Eigenschaften ist möglich. Die Fahrgestellnummern werden aber nie bekanntgegeben.

Die Suche nach Fahrzeugtypen kann nur im elektronischen Teil des Registers erfolgen. Im analogen Teil des Registers (Micro-Filme oder Micro-Fichen) befinden sich Daten zu alten Fahrzeugen, die zudem seit langem ausser Verkehr sind. Hier kann nur nach einem konkreten Fahrzeug gesucht werden, z.B. mit Hilfe von Marke und Fahrgestellnummer.

Über den Verbleib von Fahrzeugen ausser Verkehr (z.B. Export, Verschrottung, Einlagerung, Organspende, Inverkehrsetzung mit Tages- oder Händlerschildern, etc.) gibt es im Register keine Angaben.

Für eigenen Auswertungen stehen Rohdatensätze zur Verfügung.
