| Tranche d'âge | <i>80% des véhicules comptés ont un année dans ce domaine, l'année se référant ici à la date de la 1ère mise en circulation (et non à la fabrication ou à l'année du modèle). Pour les véhicules importés d'occasion, on se base sur la date de la 1ère mise en circulation à l'étranger.</i> |

Hinweise zur Bestimmung des Bestand eines bestimmten Fahrzeugtyps / Indications sur la détermination du parc d'un type de véhicule donné :

Technisch identische Fahrzeuge können unterschiedliche Typengenehmigungen aufweisen, denn jeder Importeur erstellt eine eigene Typengenehmigung. Es ist in den Daten nicht ersichtlich, welche Typengenehmigungen einander entsprechen. Typengenehmigungen des herstellerautorisierten Importeurs (Generalimporteur) haben an zweiter Position nie ein X, sondern den ersten Buchstaben des Markennamens. Typengenehmigungen eines Parallelimporteurs weisen an zweiter Stelle ein X auf.

Des véhicules techniquement identiques peuvent présenter des réceptions par type différentes, car chaque importateur établit sa propre réception par type. Les données ne permettent pas de savoir quelles réceptions par type se correspondent. Les réceptions par type de l'importateur agréé par le constructeur (importateur général) ne comportent jamais de X en deuxième position, mais la première lettre du nom de la marque. Les réceptions par type d'un importateur parallèle comportent un X en deuxième position.

Inbesondere bei neueren Personenwagen können kleinste technische Abweichungen (z.B. Reifenvarianten) in einer eigenen Typengenehmigung abgebildet sein.

En particulier pour les voitures de tourisme récentes, les plus petites différences techniques (p. ex. variantes de pneus) peuvent faire l'objet d'une réception par type spécifique. Pour les voitures de tourisme récentes en particulier, les plus petites différences techniques (p. ex. variantes de pneus) peuvent faire l'objet d'une réception par type spécifique.

Gebraucht oder für den Eigengebrauch importierte Fahrzeuge haben die Typengenehmigung X, auch wenn sie technisch exakt einem typengenehmigten Typ entsprechen.

Les véhicules d'occasion ou importés pour un usage personnel ont une réception par type X, même s'ils correspondent techniquement exactement à un type réceptionné.

Inbesondere bei Fahrzeugen mit Typengenehmigung X können identische Fahrzeugtypen unterschiedliche Typenbezeichnungen tragen. Unter anderem, weil Angaben aus ausländischen Dokumenten übernommen werden.

En particulier pour les véhicules réceptionnés par type X, des types de véhicules identiques peuvent porter des désignations de type différentes. Entre autres, parce que des indications sont reprises de documents étrangers.

Fahrzeuge können ohne Angabe einer Marke registriert sein. Sie sind dann unter der Marke 'UEBRIGE (SIEHE TYP)' aufgelistet. In diesem Bericht sind 2.371 Fahrzeuge davon betroffen.

Les véhicules peuvent être enregistrés sans indication de marque. Ils sont alors répertoriés sous la marque 'AUTRES (VOIR TYPE)'. Dans ce rapport, 2.371 véhicules sont concernés.

Einige Marken laufen unter verschiedenen Markenbezeichnungen (z.B. ENFIELD und ROYAL ENFIELD, AUDI und QUATTRO, etc.). Die unten folgende Markenübersicht listet alle im Bericht vorkommenden Marken auf und sollte vorgängig konsultiert werden.

Certaines marques se présentent sous différents noms de marque (par exemple ENFIELD et ROYAL ENFIELD, AUDI et QUATTRO, etc.). L'aperçu des marques ci-dessous énumère toutes les marques apparaissant dans le rapport et devrait être consulté au préalable.

Im Register gibt es keine Angaben zum Modelljahrgang, sondern nur zum Erstinverkehrsetzungsdatum der einzelnen Fahrzeuge (siehe dazu auch das Feld Altersbereich).

Dans le registre, il n'y a pas d'indications sur l'année du modèle, mais uniquement sur la date de première mise en circulation des différents véhicules (voir également le champ tranche d'âge).

Fahrzeuge eines Typ können manchmal unter verschiedenen Fahrzeugarten zugelassen werden (z.B. als Personenwagen oder als Lieferwagen oder als leichter Motorwagen oder als landwirtschaftlicher Traktor). Möglicherweise finden sich in einem Bericht zu anderen Fahrzeugarten noch Fahrzeuge eines gesuchten Typs.

Les véhicules d'un même type peuvent parfois être immatriculés sous différents types de véhicules (p. ex. comme voiture particulière ou comme voiture de livraison ou comme voiture automobile légère ou comme tracteur agricole). Il est possible qu'un rapport concernant d'autres types de véhicules contienne encore des véhicules d'un type recherché.

Allgemeines / Généralités :

Alle Angaben sind ohne Gewähr.

Toutes les informations sont données sans garantie.

Fehlerbehaftete Angaben (z.B. Typenbezeichnungen, Hubraum) können nicht korrigiert werden. Die Angaben im Fahrzeugausweis werden anlässlich der periodischen Fahrzeugprüfung kontrolliert und der Halter eines Fahrzeugs steht in der Pflicht, Angaben, die nicht den Tatsachen entsprechen, dem kantonalen Strassenverkehrsamt zu melden. Allfällige Korrekturen im Fahrzeugausweis werden in der Auswertung berücksichtigt, wenn das Fahrzeug in Verkehr ist und die Änderung zeitliche vor Erstellung dieses Berichts erfolgte.

Les indications incorrectes (p. ex. désignation du type, cylindrée) ne peuvent pas être corrigées. Les indications figurant dans le permis de circulation sont contrôlées lors du contrôle périodique des véhicules et le détenteur d'un véhicule a l'obligation d'annoncer au service cantonal des automobiles les indications qui ne correspondent pas à la réalité. Les éventuelles corrections apportées au permis de circulation sont prises en compte dans l'évaluation si le véhicule est en circulation et si la modification est intervenue avant l'établissement du présent rapport.

Weitergehende oder ergänzenden Auskünfte müssen nach den Vorgaben der Gebührenverordnung des ASTRA in Rechnung gestellt werden. Eine gezielte Suche nach bestimmten Typen ist grundsätzlich möglich. Auch eine Suche nach Erkennungsmustern in der Fahrgestellnummer oder anhand technischer Eigenschaften ist möglich. Die Fahrgestellnummern werden aber nie bekanntgegeben.

Les renseignements plus détaillés ou complémentaires doivent être facturés conformément aux dispositions de l'ordonnance sur les émoluments de l'OFROU. Une recherche précise de certains types est en principe possible. Il est également possible de rechercher des modèles de reconnaissance dans le numéro de châssis ou sur la base de caractéristiques techniques. Les numéros de châssis ne sont toutefois jamais communiqués.

Die Suche nach Fahrzeugtypen kann nur im elektronischen Teil des Registers erfolgen. Im analogen Teil des Registers (Micro-Filme oder Micro-Fichen) befinden sich Daten zu alten Fahrzeugen, die zudem seit langem ausser Verkehr sind. Hier kann nur nach einem konkreten Fahrzeug gesucht werden, z.B. mit Hilfe von Marke und Fahrgestellnummer.

La recherche par type de véhicule ne peut se faire que dans la partie électronique du registre. Dans la partie analogique du registre (microfilms ou microfiches) se trouvent des données sur d'anciens véhicules qui, de plus, sont hors circulation depuis longtemps. Ici, la recherche ne peut se faire que sur un véhicule concret, par exemple à l'aide de la marque et du numéro de châssis.

Über den Verbleib von Fahrzeugen ausser Verkehr (z.B. Export, Verschrottung, Einlagerung, Organspende, Inverkehrsetzung mit Tages- oder Händlerschildern, etc.) gibt es im Register keine Angaben.

Le registre ne contient aucune information sur le devenir des véhicules hors circulation (par ex. exportation, mise à la ferraille, entreposage, don d'organes, mise en circulation avec des plaques journalières ou des plaques de concessionnaire, etc.

Für eigene Auswertungen stehen Rohdatensätze zur Verfügung.

Des ensembles de données brutes sont disponibles pour des évaluations propres.
